WASHINGTON, D.C. 20505

National Intelligence Council

NIC# 8440-82
20 October 1982

MEMORANDUM FOR: Paul Wolfowitz
Director, Policy Planning Staff
Department of State

FROM : Henry S. Rowen
Chairman, National Intelligence Council

SUBJECT : Draft Estimates Program for October 1982
through September 1983

1. Attached is a copy of our proposed estimates production plan for the year ahead. I would appreciate your comments and suggestions on it. We are also seeking reactions from the NSC and, of course, from the individual NFIB members, and I am asking each NIO to discuss proposals on his own area with the appropriate Assistant Secretary of State.

2. The draft lists 68 proposed papers, of which 54 are carryovers (a few with minor modifications) from an earlier edition of the plan. The remaining 14 are new; four of these are under way and were initiated at the request of the DCI or other senior officials, and the other ten are new NIC proposals.

3. We usually update the plan every quarter, projecting it a year ahead. Of course papers are added and dropped as necessary along the way. We would be pleased to consult your office on its contents each time we revise it in the future, if you think this would be useful. I hope we will hear from you soon.

FROM : Henry S. Rowen
Chairman, National Intelligence Council

SUBJECT : Draft Estimates Program for October 1982
through September 1983

1. Attached is a copy of the draft quarterly revision of our estimates production plan. Since you were kind enough to round up NSC reactions to the previous edition, I thought you might not mind if we sought to make you a steady customer for such listings.

2. The latest draft lists 68 proposed papers, 54 of which are carryovers (a few with minor modifications) from one or more earlier editions of the plan. The remaining 14 are new; four of these are under way and were initiated at the specific request of the DCI or some other senior official, and the other ten are brand new NIC proposals.
